**EDDIE C**

**TECHNICAL RIDER**

DJ SET:

- **1 x PA** - w/ a lot of bass. (Pls. make sure that the sound system is powerful enough for the venue.)
- **2 x Turntables: Technics 1210 MK II** w/ cartridges (preferably Ortofon Nightclub E's or equivalent), substitute cartridges and slip mats. (Please avoid bass-feedback by ISOLATING THE BOOTH PROPERLY from the speakers and monitors and dance floor. If necessary, place foam and/or cement w/ squash balls under the record players!) This is essential for a proper vinyl performance.
- **2 x CD-Player: Pioneer CDJ 1000 or greater** - pitchable and cueable. CDs please. Not the ones that only play flash drive sticks.
- **1 x Mixer: Pioneer DJM 600, 800, 1000 or equivalent. Allen & Heath Xone: 62 OR equivalent. When possible E&S DJR400 is BEST.**
  - 1 x Monitor Sound system** - Tripod, to be controlled from the mixer. Please make sure that they are positioned properly and a sufficient distance from the turntables to prevent feedback.
- **2 x Tables** - for record boxes + sufficient lighting at the DJ booth.

**\*\* PLEASE NOTE IF ANYTHING ABOVE IS NOT POSSIBLE PLEASE CONTACT ASAP \*\***
